

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Cl.' H.' P.' Y.' etc. respectively indicate the college, and, when the date follows, the graduating year.

The first club following a name indicates where letters may be sent.

Club abbreviations, not included in the above list, refer to Washington, Philadelphia, Chicago, Boston or Baltimore Clubs, to distinguish which is added respectively the letters *w*, *p*, *ch*, *b*, or *bl*.

Social Registers for New York, Washington, Philadelphia, Chicago, Boston and Baltimore are issued in November, February, May and August. They record the full names and addresses of the several members of prominent families grouped together, the clubs to which they belong, and the marriage, death and European arrival and departure of each person as it may occur.

The names of Juniors { ^{M^{rs}} from 12 to 17 } appear underneath the names of older members of their families. { ^{M^{rs}} " 14 to 20 }

On the last pages of these issues will also be found an index of marriages and deaths and an alphabetical list of the maiden names of married women.

The February and May issues contain changes of address, etc., that have been made since the November number. The August number gives the country or foreign addresses of all these cities in one issue.

In addition to these issues a *Visiting Index*, systemizing visiting days in New York City, will be issued early in December.

 Miss Whitney.

the 1990s, the number of people with a mental health problem has increased in the UK (Mental Health Act 1983, 1990). The number of people with a mental health problem in the UK is estimated to be 1.5 million (Mental Health Act 1983, 1990).

There are a number of reasons why the number of people with a mental health problem has increased in the UK. One reason is that the number of people who are diagnosed with a mental health problem has increased. This is due to a number of factors, including an increase in the number of people who are seeking help for their mental health problem, an increase in the number of people who are being diagnosed with a mental health problem, and an increase in the number of people who are being treated for a mental health problem.

Another reason why the number of people with a mental health problem has increased in the UK is that the number of people who are living with a mental health problem has increased. This is due to a number of factors, including an increase in the number of people who are living with a mental health problem, an increase in the number of people who are living with a mental health problem, and an increase in the number of people who are living with a mental health problem.

A third reason why the number of people with a mental health problem has increased in the UK is that the number of people who are being treated for a mental health problem has increased. This is due to a number of factors, including an increase in the number of people who are being treated for a mental health problem, an increase in the number of people who are being treated for a mental health problem, and an increase in the number of people who are being treated for a mental health problem.

There are a number of reasons why the number of people with a mental health problem has increased in the UK. One reason is that the number of people who are seeking help for their mental health problem has increased.
